APPLIED DESIGN, SKILLS & TECHNOLOGY (ADST) cont'd

Technology Education

Senior ADST 10-12 SHOP:

Applied Design & Skills Specialization -

Courses involve moving through all phases of the design process (brainstorming through to project completion). These courses focus on skills used in the design and creation process. Specific skills include, but are not limited to, cooperation, collaboration, analyzing and safely using applicable tools.

In 2024-2025, this SSS course might include projects in metalworking, electrical, woodworking, and/or jewelry making. Course projects (focus areas) will be determined by the qualifications and expertise of the teaching staff hired for this course/position.

Senior ADST 10-12 TECH:

Applied Technologies Specialization -

Courses focus on using technologies to support and facilitate the designing process.

In 2024-2025, this SSS course might include projects in drafting, 3-D printing and/or robotics. Course projects (focus areas) will be determined by the qualifications and expertise of the teaching staff hired for this course/position.

****FYI: All electives are subject to change based on availability of teaching staff.**
